Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Continuation of 3. NOTE: Amendment to claim 1 presents new issues not previously considered in at least dependent claims 6 and 32 having further limitations of the flattening layer.

Continuation of 11. does NOT place the application in condition for allowance because: Arguments regarding the patentability of currently presented claim 1 have been considered but are not persuasive. Furusawa discloses the layer 20 as including both layers 120 and 121 protecting the thin film transistor. Protection from ultraviolet light is further desirable to protect the display during photolithographic manufacturing processes and environmental and ambient light.
